🔗 Portfolio

Profile

Full-Stack Developer with 2+ years of experience delivering scalable web and mobile solutions using React, React Native, Flask, and SQLAlchemy. I blend technical proficiency in JavaScript, Python, SQL, and REST APIs with strong analytical, problem-solving, and bilingual (English/Spanish) communication skills honed through background in operations and customer service.

Skills

Javascript | Python | React.js | Flask | HTML5 | CSS3 | GitHub | Git | JSON WebToken (JWT) | Bootstrap | Jest | Restful APIs | SQLAlchemy | SQL | React Native | Expo | Figma | Vercel

Projects

Xplora Tours, *Website*

08/2025 – 09/2025

I designed responsive interfaces with React for the registration of tourists and guides, improving usability on mobile and desktop devices.

Implemented login and registration forms integrated with JWT and Flask, improving authentication and security for user access.

Built dynamic components in React and JavaScript for the tour CRUD and visitor review functionality.

In order to ensure reliable data persistence I collaborated on integrations with SQL and SQLAlchemy for reviews, favorites, and tour registrations.

Professional Experience

Web developer, *Bichokun*

11/2025 – 06/2026 | Mexico

- Developed and updated the company website using React, Tailwind CSS, and JavaScript, ensuring a seamless and informative user experience.
- Redesigned the menu section to enhance product presentation, significantly improving overall user interface (UI) and user experience (UX).
- Implemented promotional features aligned with business strategies to drive sales growth and boost customer loyalty.

Mobile developer (React Native), *Freelance* ✉

05/2024 – 06/2025 | Remote

- Developed interactive and scalable mobile interfaces with React Native and TypeScript, consistently applying responsive design principles.
- Translated Figma designs into functional code, ensuring high visual fidelity and strict UX/UI consistency.
- Styled components using NativeWind (Tailwind CSS), optimizing development time and code maintainability.
- Integrated multi-language support (i18n) to enhance accessibility and reach a broader global user base.
- Collaborated within an Agile environment with 3-4-week sprints, actively participating in code reviews, functional testing, and sprint planning.

Customer service, *Hertz*

03/2023 – 07/2024 | Cancun, MX

I managed up to 95 daily agreements during high season, making sure the correct registration and charges in system, strengthening my data handling and attention to details.

Solved complex incidences with customers, applying assertive communication and stress control to keep service standards under pressure.

Check and documentation of vehicle returning process, including damage detection and charge management, improving the validation of information and compliance with procedures.

Education

Fullstack Development Certificate, *4Geeks Academy* ✉

06/2025 – 09/2025 | Remote

MERN Fullstack development Certificate, *IronHack* ✉

10/2022 – 12/2022 | Remote

Administration, *Humanitas*

04/2019 – 09/2022 | CDMX, Mexico

Languages

English — B2 | Spanish — Native
